

## 1 Identification

### Product identifier

**Product name:** 4-Hydroxy-1H-pyrazolo[3,4-d]pyrimidine

**Stock number:** A16974

**CAS Number:**  
315-30-0

**EC number:**  
206-250-9

**Relevant identified uses of the substance or mixture and uses advised against.**

**Identified use:** SU24 Scientific research and development

### Details of the supplier of the safety data sheet

#### Manufacturer/Supplier:

Alfa Aesar  
Thermo Fisher Scientific Chemicals, Inc.  
30 Bond Street  
Ward Hill, MA 01835-8099  
Tel: 800-343-0660  
Fax: 800-322-4757  
Email: tech@alfa.com  
www.alfa.com

**Information Department:** Health, Safety and Environmental Department

#### Emergency telephone number:

During normal business hours (Monday-Friday, 8am-7pm EST), call (800) 343-0660. After normal business hours, call Carechem 24 at (866) 928-0789.

## 2 Hazard(s) identification

**Classification of the substance or mixture in accordance with 29 CFR 1910 (OSHA HCS)**

GHS06 Skull and crossbones

Acute Tox. 3 H301 Toxic if swallowed.

GHS07

Skin Sens. 1 H317 May cause an allergic skin reaction.

**Hazards not otherwise classified** No information known.

### Label elements

**GHS label elements** The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)

### Hazard pictograms

GHS06

**Signal word** Danger

### Hazard statements

H301 Toxic if swallowed.

H317 May cause an allergic skin reaction.

### Precautionary statements

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/...

P363 Wash contaminated clothing before reuse.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

### WHMIS classification

D1A - Very toxic material causing immediate and serious toxic effects

D2B - Toxic material causing other toxic effects

### Classification system

#### HMIS ratings (scale 0-4)

(Hazardous Materials Identification System)

HEALTH 2 Health (acute effects) = 2

FIRE 1 Flammability = 1

REACTIVITY 1 Physical Hazard = 1

### Other hazards

#### Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

## 3 Composition/information on ingredients

### Chemical characterization: Substances

#### CAS# Description:

315-30-0 4-Hydroxy-1H-pyrazolo[3,4-d]pyrimidine

#### Identification number(s):

EC number: 206-250-9

## 4 First-aid measures

### Description of first aid measures

#### General information

Immediately remove any clothing soiled by the product.

In case of irregular breathing or respiratory arrest provide artificial respiration.

Product name: **4-Hydroxy-1H-pyrazolo[3,4-d]pyrimidine**

(Contd. of page 1)

**After inhalation**  
Supply fresh air. If required, provide artificial respiration. Keep patient warm.  
Seek immediate medical advice.  
**After skin contact**  
Immediately wash with water and soap and rinse thoroughly.  
Seek immediate medical advice.  
**After eye contact** Rinse opened eye for several minutes under running water. Then consult a doctor.  
**After swallowing** Do not induce vomiting; immediately call for medical help.  
**Information for doctor**  
**Most important symptoms and effects, both acute and delayed** No further relevant information available.  
**Indication of any immediate medical attention and special treatment needed** No further relevant information available.

5 Fire-fighting measures

**Extinguishing media**  
**Suitable extinguishing agents** Use carbon dioxide, extinguishing powder or foam. Water may be ineffective but may be used for cooling exposed containers.  
**Special hazards arising from the substance or mixture**  
**Methods and material for containment and cleaning up:** Dispose of contaminated material as waste according to section 13.  
**Carbon monoxide and carbon dioxide**  
**Nitrogen oxides (NOx)**  
**Advice for firefighters**  
**Protective equipment:**  
Wear self-contained respirator.  
Wear fully protective impervious suit.

6 Accidental release measures

**Personal precautions, protective equipment and emergency procedures**  
Wear protective equipment. Keep unprotected persons away.  
Ensure adequate ventilation  
**Environmental precautions:** Do not allow material to be released to the environment without proper governmental permits.  
**Methods and material for containment and cleaning up:** Dispose of contaminated material as waste according to section 13.  
**Prevention of secondary hazards:** No special measures required.  
**Reference to other sections**  
See Section 7 for information on safe handling  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

7 Handling and storage

**Handling**  
**Precautions for safe handling**  
Keep container tightly sealed.  
Store in cool, dry place in tightly closed containers.  
Ensure good ventilation at the workplace.  
**Information about protection against explosions and fires:** No information known.  
**Conditions for safe storage, including any incompatibilities**  
**Storage**  
**Requirements to be met by storerooms and receptacles:** No special requirements.  
**Information about storage in one common storage facility:** Store away from oxidizing agents.  
**Further information about storage conditions:**  
Keep container tightly sealed.  
Store in cool, dry conditions in well sealed containers.  
**Specific end use(s)** No further relevant information available.

8 Exposure controls/personal protection

**Additional information about design of technical systems:**  
Properly operating chemical fume hood designed for hazardous chemicals and having an average face velocity of at least 100 feet per minute.  
**Control parameters**  
**Components with limit values that require monitoring at the workplace:** Not required.  
**Additional information:** No data  
**Exposure controls**  
**Personal protective equipment**  
**General protective and hygienic measures**  
The usual precautionary measures for handling chemicals should be followed.  
Keep away from foodstuffs, beverages and feed.  
Remove all soiled and contaminated clothing immediately.  
Wash hands before breaks and at the end of work.  
Maintain an ergonomically appropriate working environment.  
**Breathing equipment:** Use suitable respirator when high concentrations are present.  
**Protection of hands:**  
Impervious gloves  
Check protective gloves prior to each use for their proper condition.  
The selection of suitable gloves not only depends on the material, but also on quality. Quality will vary from manufacturer to manufacturer.  
**Eye protection:** Safety glasses  
**Body protection:** Protective work clothing.

9 Physical and chemical properties

**Information on basic physical and chemical properties**  
**General Information**  
**Appearance:**  
**Form:** Powder  
**Color:** White  
**Odor:** Odorless  
**Odor threshold:** Not determined.  
**pH-value:** Not applicable.  
**Change in condition**  
**Melting point/Melting range:** >300 °C (>572 °F)  
**Boiling point/Boiling range:** Not determined

| <b>dynamic:</b>                                 | Not applicable.                               |
| <b>kinematic:</b>                               | Not applicable.                               |
| <b>Other information</b>                        | No further relevant information available.    |

**10 Stability and reactivity**

**Reactivity** No information known.  
**Chemical stability** Stable under recommended storage conditions.  
**Thermal decomposition / conditions to be avoided:** Decomposition will not occur if used and stored according to specifications.  
**Possibility of hazardous reactions** No dangerous reactions known  
**Conditions to avoid** No further relevant information available.  
**Incompatible materials:** Oxidizing agents  
**Hazardous decomposition products:**  
Carbon monoxide and carbon dioxide  
Nitrogen oxides

**11 Toxicological information**

|                                                                                                                                                 | LD50 | 78 mg/kg (mouse)    |
|                                                                                                                                                 |      | >100 mg/kg (rabbit) |
|                                                                                                                                                 | LDLo | 88 mg/kg (wmn)      |
| <b>Skin irritation or corrosion:</b> May cause irritation                                                                                       |      |                     |
| <b>Eye irritation or corrosion:</b> May cause irritation                                                                                        |      |                     |
| <b>Sensitization:</b> May cause an allergic skin reaction.                                                                                      |      |                     |
| <b>Germ cell mutagenicity:</b> No effects known.                                                                                                |      |                     |
| <b>Carcinogenicity:</b> No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH. |      |                     |
| <b>Reproductive toxicity:</b> No effects known.                                                                                                 |      |                     |
| <b>Specific target organ system toxicity - repeated exposure:</b> No effects known.                                                             |      |                     |
| <b>Specific target organ system toxicity - single exposure:</b> No effects known.                                                               |      |                     |
| <b>Aspiration hazard:</b> No effects known.                                                                                                     |      |                     |
| <b>Subacute to chronic toxicity:</b>                                                                                                            |      |                     |
| The Registry of Toxic Effects of Chemical Substances (RTECS) reports the following effects in laboratory animals:                               |      |                     |
| Kidney, Ureter, Bladder - other changes.                                                                                                        |      |                     |
| Kidney, Ureter, Bladder - changes in bladder weight.                                                                                            |      |                     |
| Kidney, Ureter, Bladder - structural or functional changes in ureter.                                                                           |      |                     |
| Skin and Appendages - dermatitis, other (after systemic exposure).                                                                              |      |                     |
| Skin and Appendages - dermatitis, allergic (after systemic exposure).                                                                           |      |                     |
| Blood - other changes.                                                                                                                          |      |                     |
| Blood - leukopenia.                                                                                                                             |      |                     |
| Blood - thrombocytopenia.                                                                                                                       |      |                     |
| Blood - changes in serum composition.                                                                                                           |      |                     |
| Behavioral - muscle weakness.                                                                                                                   |      |                     |
| Behavioral - food intake (animal).                                                                                                              |      |                     |
| Behavioral - fluid intake.                                                                                                                      |      |                     |
| Behavioral - ataxia.                                                                                                                            |      |                     |
| Behavioral - somnolence (general depressed activity).                                                                                           |      |                     |
| Liver - jaundice, other or classified.                                                                                                          |      |                     |
| Liver - other changes.                                                                                                                          |      |                     |
| Liver - changes in liver weight.                                                                                                                |      |                     |
| Biochemical - Enzyme inhibition, induction, or change in blood or tissue levels - phosphatases.                                                 |      |                     |
| Biochemical - Enzyme inhibition, induction, or change in blood or tissue levels - transaminases.                                                |      |                     |
| Reproductive - Effects on Embryo or Fetus - fetotoxicity (except death, e.g., stunted fetus).                                                   |      |                     |
| Reproductive - Effects on Embryo or Fetus - fetal death.                                                                                        |      |                     |
| Reproductive - Specific Developmental Abnormalities - musculoskeletal system.                                                                   |      |                     |
| Reproductive - Specific Developmental Abnormalities - craniofacial (including nose and tongue).                                                 |      |                     |
| <b>Additional toxicological information:</b> To the best of our knowledge the acute and chronic toxicity of this substance is not fully known.  |      |                     |

**12 Ecological information**

**Toxicity**  
**Aquatic toxicity:** No further relevant information available.  
**Persistence and degradability** No further relevant information available.  
**Bioaccumulative potential** No further relevant information available.  
**Mobility in soil** No further relevant information available.  
**Additional ecological information:**  
**General notes:**  
Do not allow material to be released to the environment without proper governmental permits.  
Do not allow undiluted product or large quantities to reach ground water, water course or sewage system.

(Contd. on page 4)  
USA

**Product name: 4-Hydroxy-1H-pyrazolo[3,4-d]pyrimidine**

Avoid transfer into the environment.  
**Results of PBT and vPvB assessment**  
**PBT:** Not applicable.  
**vPvB:** Not applicable.  
**Other adverse effects** No further relevant information available.

(Contd. of page 3)

**13 Disposal considerations**

**Waste treatment methods**  
**Recommendation** Consult state, local or national regulations to ensure proper disposal.  
**Uncleaned packagings:**  
**Recommendation:** Disposal must be made according to official regulations.

**14 Transport information**

**15 Regulatory information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**  
**GHS label elements** The product is classified and labeled in accordance with 29 CFR 1910 (OSHA HCS)  
**Hazard pictograms**

GHS06

**Signal word** Danger

**Hazard statements**

H301 Toxic if swallowed.

H317 May cause an allergic skin reaction.

**Precautionary statements**

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/...

P363 Wash contaminated clothing before reuse.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

**National regulations**

All components of this product are listed in the U.S. Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.

All components of this product are listed on the Canadian Domestic Substances List (DSL).

**SARA Section 313 (specific toxic chemical listings)** Substance is not listed.

**California Proposition 65**

**Prop 65 - Chemicals known to cause cancer** Substance is not listed.

**Prop 65 - Developmental toxicity** Substance is not listed.

**Prop 65 - Developmental toxicity, female** Substance is not listed.

**Prop 65 - Developmental toxicity, male** Substance is not listed.

**Information about limitation of use:** For use only by technically qualified individuals.

**Other regulations, limitations and prohibitive regulations**

**Substance of Very High Concern (SVHC) according to the REACH Regulations (EC) No. 1907/2006.** Substance is not listed.

**The conditions of restrictions according to Article 67 and Annex XVII of the Regulation (EC) No 1907/2006 (REACH) for the manufacturing, placing on the market and use must be observed.**

Substance is not listed.

**Annex XIV of the REACH Regulations (requiring Authorisation for use)** Substance is not listed.

**Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

Product name: 4-Hydroxy-1H-pyrazolo[3,4-d]pyrimidine
